What Type of Antifreeze & Coolant for Hyundai i10. How Much

Just had my i10 for over a month now and seems to be working great, except that the temperature was running a little high after a few long journeys. Just to be on the safe side - I checked the coolant levels on the tank. When I referred to the manual, it directed me to the engine coolant reservoir and to look at the L and F markings.

HYUNDAI I10 OWNER'S MANUAL Pdf Download.

Every engine requires a specific amount of engine coolant. Coolant, also called antifreeze or radiator fluid, circulates through your Hyundai's engine. This regulates the temperature and prevents the engine from reaching temperatures that could damage it. Over time, it is common for coolant to evaporate or even ...

How to Fill Coolant in a Hyundai | It Still Runs

If it isn't, you'll need to top it up... TOPPING UP YOUR ENGINE COOLANT. To top up your engine's coolant, you can simply open the reservoir cap (be careful the engine is not too hot and use a cloth wrapped around the cap to open it, as there could be some residual pressure left in the system) and add to the fluid level - what you use to do this is very important though.

I have a 2011 Hyundai Sonata with 60k miles on it (90% highway miles). I've had it for about 2 years & 3 months. So the manual says I have to "replace coolant" which I'm assuming is the engine coolant. The dealer charges 140 for a "flush" & 70 for a drain & fill. Which one should I do?

Replace Coolant (Flush vs Drain & Fill) | AnandTech Forums ...

The only 'Prestone' coolant that I ever see is AMM which is not 'regular green coolant' but is rather an EL OAT. The only (name brand) 'regular green coolant' I can find is PEAK traditional. Having said that, I don't believe you would have a problem using Prestone AMM as long as you flushed out the factory coolant well.
