Enter your Honda Engines model number below. Click the Search Button to See More Results. Parts lookup for Honda Engines power equipment is simpler than ever. Enter your model number in the search box above or just choose from the list below.

Honda Engines GX35 Parts Lookup by Model

Honda uses Net Horsepower at 3600 RPMs for our engines. This is different from maximum horsepower, the way it has traditionally been calculated. However, Honda feels it more accurately reflects the true available power of a completed engine. Please see the individual model pages for specific horsepower ratings.
