How Often Change Manual Transmission

The manufacturers of most vehicles recommend that you change your manual transmission fluid at least every 30,000 miles or at the most 60,000 miles, depending on the make and model of the manual vehicle. But if you are constantly putting your manual transmission under stressful conditions, then the fluid should be changed after 15,000 miles.

How Often to Change Transmission Fluid (Manual and ...

When to Change Manual Transmission Fluid. The fluid of manual transmissions has a shorter lifespan. The typical manufacturer of a manual vehicle will tell you to change your fluid at around 30,000 to 60,000 miles. Of course, every make and model will likely have a different recommendation, but one that is within this range of miles.

How Often to Change Transmission Fluid: Manual and ...

How Often to Change Transmission Fluid. It is recommended to change the transmission fluid of a manual transmission vehicle after every 30,000 to 60,000 miles and that of an automatic transmission vehicle after every 30,000 miles or never, depending on the recommendation of your car provider.

How Often to Change Transmission Fluid - WheelZine

Though it doesn't have to be changed as often as motor oil, fresh gearbox fluid keeps your stick-shift transmission from overheating and tearing itself apart.

How and Why to Change Your Manual Transmission Fluid

If you do that every time you change your engine oil, your transmission fluid will always be in pristine condition. Do it every second oil change and you will still be in good shape. Then replace the filter every 30,000 or 60,000 miles. That's reasonable.

How Often Should I Change My Transmission Fluid?

Manual transmission fluid is not a bad idea to change in 30,000 miles of use. "Severe duty" use for this vehicle is even every 15,000 miles per the maintenance guide. I would think 30,000 is sufficient. As far as clutch hydraulic fluid -- every 3 years it is a good idea to replace both your clutch and brake fluid (same thing).

how often to change manual transmission fluid - 1990 ...

My owner's manual says I should change the transmission fluid every 30,000 miles, but my father swears it should be changed as often as engine oil every 4000 to 5000 miles.

How Often Should You Change Your Transmission Fluid?

Most manufacturers suggest 30,000 to 60,000 miles as the point at which you should change the transmission fluid in a manual transmission. However, vehicles with transmissions that are under 'high stress' should change the transmission fluid every 15,000 miles.

How Often Do I Need to Replace the Transmission Fluid ...

If your car's expected lifespan is only 100,000 miles, of course there is no reason to change the manual transmission oil. However, if you want your manual transmission to see the 300,000 mile mark, changing the transmission oil every 30,000 miles is cheap insurance.
