I have a Husky pressure washer with a Honda GCV160 engine. I regularly change the motor oil. The engine started to burn oil at rate of about 1/4 quart every hour of operation. I've rebuilt many small engines in my day and will order replacement valve seals and piston rings. Since I don't have a service manual for this engine and therefore don't ...

Hello all!! I have a Honda GCV160 engine on my Husqvarna 21" mower. When I choke it to start the mower the engine will run until the choke is shut off and then it dies. I have removed the carb and completely cleaned it- removed main jet and venturi tube, ect. What the heck am I missing here? Any suggestions would be appreciated-Thanks!!

Hi all. We bought a Craftsman push mower last summer with the Honda GCV160 engine. After just a month, the engine started cutting out, then would not start. I took the carb off and blew it out with Carb Cleaner. Fixed. This summer after a few uses, same problem. I had to do a more extensive cleaning on the carb, removing the jet and soaking it overnight.

Honda flywheel key. The flywheel key aligns the flywheel in the correct position on the crankshaft. If the engine stops suddenly due to hitting a hard object, the flywheel key shears in half to prevent damage to the engine. If the flywheel key is broken, the engine won't start.
