How Often Change Engine Oil

The traditional recommendation is that you should change your oil every 3,000 miles or 6 months, whichever comes first. However, the new standard is that you can typically change your oil every 5,000 miles worry-free (especially if you are driving a relatively new car or are in “optimal operating conditions”).

How Often Should You Change Your Oil? - dummies

Depending on vehicle age, type of oil and driving conditions, oil change intervals will vary. It used to be normal to change the oil every 3,000 miles, but with modern lubricants most engines today have recommended oil change intervals of 5,000 to 7,500 miles.

How Often Should You Change Engine Oil - AAA

You need more frequent oil changes. They found no noticeable difference in engine protection whether you changed the oil every 3,000 or 7,500 miles. Ultimately, this one has to be a personal decision. Maybe you're comfortable changing every 3,000 miles and think 7,500 is too long to wait.

How often should you change the oil in your car? - Clark ...

While a \$50 oil and filter change is cheap preventative maintenance on a \$30,000 vehicle, everyone from Edmunds to the New York Times agrees that the 3,000-mile oil change is no longer applicable in today's vehicles. The rules have changed with the tech of the last 50 years.

How Often Should You Really Change That Engine Oil ...

How often to change oil. Drivers with less typical driving habits should change engine oil every 5,000 miles or six months for vehicles 2008 and newer, and every 3,000 miles or three months for cars 2007 and older. According to Ford, less typical driving habits include frequent off-road driving or driving in dusty conditions,...

How Often Should You Change Your Oil? | Angie's List

How Often to Change the Oil. Some swear by the “every 3,000 miles or every 3 months” rule, but advances in engines and oil have made that guidance obsolete. Many automakers have oil-change intervals at 7,500 or even 10,000 miles and 6 or 12 months for time.

5 Things to Know About Oil Changes for Your Car - Consumer ...

Years ago, it was a good idea to change your engine oil and oil filter frequently, but because of advances in engine materials and tighter tolerances, as well as the oil that goes into engines, most manufacturers recommend intervals of 7,500 miles or more. Ford, Volkswagen and Porsche, for example, recommend oil changes every 10,000 miles.

Do You Really Need to Change Your Oil Every 3,000 Miles ...

Some people remain attached to the 3,000-mile oil change and have a hard time trusting the recommendations in the owner's manual.

No Reason to Change the Oil Every 3,000 Miles - The New ...

Knowing when to change your oil is tricky because there isn't a one-size-fits-all solution. Different cars and engines require different maintenance schedules. The old rule-of-thumb required that you change your oil between every 1,000 to 3,000 miles.

How Often Should I Change My Oil - Meineke Car Care

The car had an oil life monitoring system, and the system had recommended the past two oil change intervals at 5,500 miles and 7,600 miles on non-synthetic oil.

Stop Changing Your Oil! | Edmunds.com

Most motorists now understand that synthetic motor oil performs better than conventional oil. It delivers improved wear protection, offers better engine cleanliness and lasts longer. Not as well understood, though, is how often you should change synthetic motor oil. Not long ago, it was

common to change conventional oil every 3,000 miles/3 months.

Ask AMSOIL: How Often Should Synthetic Motor Oil be Changed?

While we agree with oil companies' advice to change oil filters when you change the oil, there's a difference in opinion on how often this should occur. Unless you're driving an antique vehicle with an almost prehistoric engine system that doesn't filter debris as efficiently, the 3,000-mile rule is a myth.

How Often Do Oil Filters Need to Be Replaced ...

Change your engine oil at the vehicle manufacturer's recommended service interval that matches your vehicle's operating conditions and your driving habits Check your tire inflation pressure monthly Rotate your tires at the vehicle manufacturer's recommended service interval or every 6 months/5,000 miles
