Answers. If a smaller engine, easiest way is take off cover and disconnect main wiring harness (big 2pc harness) This allows the engine to be pull started. To kill engine you will have to connect it back or choke it. Bigger engines you can't pull so it is more like a car and you need to hotwire the starter.

how do i hotwire my boat? | Yahoo Answers

How do I hot wire an ignition on my boat. My key just turns in a circle, on the back of the tumbler are 3 post, 2 close - Answered by a verified Marine Mechanic We use cookies to give you the best possible experience on our website.

How do I hot wire an ignition on my boat. My key just ...

It is also pretty easy to hot wire a boat. A jumper from the battery to the coil will tell you if the problem is engine related or in the boat wiring. If you bypass the switch, don't forget the tie it back in. A rebuilt MerCruiser foot, where the transmission is, costs in the \$1500+ range. You don't want to tear it up over a \$20 switch.

How to start a Boat.| Off-Topic Discussion forum

Rev the engine. If you get the car to start, rev it a few times so you don't stall out and have to do this process again. Once the engine starts, you can detach the starter wire and continue on your way. When you want to kill the engine, simply unfasten the battery wires from the ignition wires and the car will die.

3 Quick and Easy Ways to Hotwire Your Car - wikiHow

MerCruiser 7.4 MPI MAGNUM Dyno-Boost Boat Performance Chip

You won't hot-wire my boats. One is a kayak with no engine, the other is a sailboat where the outboard engine probably stopped working years ago... On a serious note, it depends on the boat: If my sailboat outboard engine had worked, the steps would be: 1. Is there even gas in the tank? Open the little screw cap on the back of the cover and look.
