Lining up cams , 4e-fte - posted in Technical: HeySo i replaced my leaking headgasket , torqued down the head bolts. But now im struggeling to line up the cam the bottom crank pulley is showing to 0 but how does one line up the cams ? on my previous car the two cams had two timing marks that were supposed to show to each other , but i cant see anything similar on the 4e motor. on the exhaust cam's ...

OK, so I've had this EP91 for almost a year now. Bought it off a guy who just used it to get to work at Sydney Uni and back, genuinely looked after and only the second owner (as per RTA records), so it hasn't been screwed around with. The first problem I had was that I was having a miss on No1

cylinder. I found this out when I connected my timing light to the No1 ignition lead closest to the ...

### **EP91 Starlet 4EFE Motor - Ignition probs & why won't it ...**

FE engines use a timing assembly very similar to other Ford engines, with the aforementioned cam thrust plate, an offset positioned dowel pin for locating, and a single central cam bolt for retention. The factory cam sprockets were often aluminum with molded nylon teeth for quieter operation.
