Ethical issues do not exist within a vacuum; rather, they emerge, evolve, and adapt within the socio-cultural context of a particular society. In past decades, the field of professional ethics has received increased attention. Much of the discussion began in the 1960s in the medical field, where the blending of ethics, legalities, and medicine has become known as bioethics.

This is a terrific article! Thank you for it. Having previously come from social work which also has a  
lot of image-related baggage (you're either a selfless martyr giving your whole life to others or  
you're a soulless bureaucrat who takes people's kids), I've seen how people can get trapped by that  
and experience burnout because they either don't fit or are trying too hard to live ...
