Cut3ne55 Apparently you don't understand this vehicle and how it's strategically designed to limit your options. There are many issues with your statement and there is no plug port other than a firmware specific USB input and bluetooth option which results in signal loss and loss of dynamic range aka. "sound quality".

A scooter (also referred to as a motor scooter to avoid confusion with kick scooter, but not to be confused with a motorized scooter) is a type of motorcycle with a step-through frame and a platform for the rider's feet. Elements of scooter design were present in some of the earliest motorcycles, and scooters have been made since 1914 or earlier. Scooter development continued in Europe and the ...

I think they would have to link at it and determine the cause contact Honda and then determine whether it is warranty. If they replace the switch with the updated switch part number then I think there is an argument that it should be covered (if they try to charge you) or why would they update a part?
