How To Reset A Check

How to Reset a Check Engine Light. Check engine lights go on when there is a problem in the engine or the emissions control system. You should always have the codes generated by your car's computer scanned and read so you can determine the cause. You can reset the light once you have fixed the problem. This article...

How to Reset a Check Engine Light: 6 Steps (with Pictures)

The Subaru check engine light comes on when there is a problem with the Subaru's emissions control system. The Subaru's computer, called an ECU, generates fault codes that pertain to various sensors on the vehicle. If one of these sensors fails, it will trigger a fault code. The code is then stored in the ...
